

Nutromode Snacks Pvt.Ltd

Curators of
Extruded Snacks...

The image shows two white bowls filled with golden-brown, spherical puffed snacks, likely corn or millet-based. The bowls are positioned diagonally on a solid purple background. The top bowl is partially filled, while the bottom bowl is more full.

Letter

From the Director

Dear valued customer

Established in 2012, at Nutromode, we take pride in crafting puff snacks that not only satisfy your mid-day cravings but also promote healthy snacking

Our puffs are crafted to perfection using wholesome ingredients like corn, millets, lentils, and other superfoods, ensuring high nutritional value. We also specialize in custom-made projects, offering tailored solutions for our clients.

We specialize in contract manufacturing and private labeling for extruded snacks, providing end-to-end solutions that include consultation, production, and packaging.

Thank you for considering Nutromode as your manufacturing partner. Whether you're planning a special event, corporate gifting, or bulk distribution, we are committed to delivering variety, quality, and flexibility to meet your needs.

We look forward to collaborating with you as your manufacturing partner for puff snacks.

Warm regards,
Harita Pachmatia
Director
Nutromode Snacks Pvt. Ltd.

Our Infrastructure, Capacity & Speciality

Plant Capacity & Utilization

Our facility is spread across 43,000 sq. ft. with 3 fully automatic production/extrusion lines (Twin Screw Extruders, Roasting, Semi-automatic Flavoring System and 4 Multi-Head FFS Packing Machines), having the capacity to produce a minimum of 8 tons of extruded snacks per day, ensuring we can cater to substantial B2B supply requirements.

Wide Range of Puffs & Customization

We manufacture puffs using corn, quinoa, jowar, ragi, chickpea, lentils, soya, makhana, and more. We produce a wide variety of delicious puff snacks and also provide customized product development according to our clients' requirements.

Bulk Orders & Timely Delivery

Whether it's special events, corporate gifting, retail distribution, or bulk supply, we have the capability to fulfill large orders promptly without compromising on quality.

New Product Development

Our team has achieved a 100% success rate in New Product Development (NPD). We continuously strive for innovation and excellence, whether it's introducing new products, enhancing existing puff ranges, or developing unique products for emerging markets.

Commitment to Customer Satisfaction

We value our customers and strive to exceed their expectations by delivering high-quality products, reliable service, and the production capacity to meet their volume requirements.

WHERE QUALITY MEETS PRECISION

At Nutromode Snacks, quality is not just a promise- it's a process. At the core of that process lies our fully equipped in-house laboratory, built to ensure that every puff we produce meets the highest standards of safety, consistency, and taste.

Every batch we create is closely monitored through routine physical and chemical tests. With expert food thechnologists at the helm, we ensure that the snacks leaving our facility are not only tasty but reliable in every bite.

WHERE SNACK IDEAS GROW (NPD)

At Nutromode Snacks Pvt. Ltd., innovation is more than a department- it's how we grow with our partners. Our dedicated R&D team of qualified food technologists specializes in developing puff snack products that are nutritious, scalable, and flavourful. We guide you through:

- New product development (NPD) from scratch
- Reformulation of existing products.
- Ingredients innovation using millets, lentils, and legumes
- Texture, seasoning, and mouthfeel optimization
- Sample trials and pilot runs for validation

We're constantly exploring better combinations of taste, nutrition, and functionality - so your brand always stays ahead in the market.
